

The Foodscape Revolution

Brie Arthur

WHAT IS A FOODSCAPE?

Foodscaping is simple: it is the logical integration of edible plants in a traditional ornamental landscape. Utilize the "open mulch space" to create a landscape that is beautiful and bountiful.

It's the next big movement: YARD TO TABLE

HOW TO FOODSCAPE:

- Use the existing landscape
- Utilize a an ornamental base
- Work with HOA Guidelines
- Think Outside of the Box
- Select plants to create an engaging space
- Full sun
- High traffic area
- Grow on YOUR terms... gardening is a wonderful hobby

WHY FOODSCAPE:

- Organic and sustainable land management
- Increases bio-diversity
- Improves soil health
- Abundance of beneficial insects
- Create a living ecosystem in every landscape
- Reduces disease issues
- Conversation Starter
- Easily irrigated and managed
